## Blind Brother Wins First Place by Loyalty of His Collegues Who Come Second—Dean Pays Eulogium While Fellow Students Cheer—A Remarkable Record in the Law School.

128 HOTELS CHOPPED OFF.

Montreal, May 2.—An interesting story of brotherly love and courage work under the affliction of total blindness was involved at McGill University Thursday, when two brothers, Thomas S. and William Stewart, graduated in law, coming respectively first and second in the class and winning two out of three scholarships.

Thomas S. Stewart is totally blind, and his eyes have been so since he was a child. He was educated at the McGill University, and he was a member of the McGill Law School.

Stewart under the operation, but by the aid of his colleagues, he was able to complete the course. He was a member of the McGill Law School, and he was a member of the McGill Law School.

Unimpaired by this, he undertook to pursue his studies in law at McGill, and even since then his brother, who he had never met, had been with him, and he was a member of the McGill Law School.

Dean Watson paid a warm eulogium to the two brothers, and he said that they were a credit to the McGill Law School. He was a member of the McGill Law School, and he was a member of the McGill Law School.

# THE TRED SPRING FEELINGS

Are Due to the Thin, Watery Condition of the Blood and Consequently Lack of Nerve Force, Vigor and Energy.

To overcome that tired feeling toward the close of winter and the beginning of spring you must create good, red blood. Everything depends on the quality of the blood in the human system. In the spring the blood is almost sure to be thin and watery. The result is a starved condition of the nervous system and derangement of the vital organs of the body.

**Weak heart action, impaired digestion, irregular filtering process of liver and kidneys, headaches, sleeplessness and irritability and depressed spirits, with tired, languid feelings of spring.**

are the prominent symptoms. To overcome this run-down and worn-out condition of body and mind restorative treatment such as is found in Dr. CHASE'S NERVE FOOD is absolutely necessary.

In the spring the year is filled with germs, which lurk in myriads wherever winter refuse has been left to rot and ferment, and the only resistance against disease germs is good, red blood.

## Dr. Chase's Nerve Food

is, above all else, a builder of good, red blood, and hence a restorative of the very highest class. Gradually and certainly it forms new, firm flesh and tissue, puts new vigor and energy into the nervous system, improves digestion and restores health and strength. Note its increase in weight while using this great food cure.

Completion is a thing desired to swell the bottom of the patient's mind. A woman being married, a woman being a mother, a woman being a sister, a woman being a friend, a woman being a neighbor, a woman being a citizen, a woman being a woman. When a woman is unhappy married she would gladly resign her position. When a woman is a mother she would gladly resign her position. When a woman is a sister she would gladly resign her position. When a woman is a friend she would gladly resign her position. When a woman is a neighbor she would gladly resign her position. When a woman is a citizen she would gladly resign her position. When a woman is a woman she would gladly resign her position.

Slip Stots, of Newark, in electricity, were 25 years old, it already becoming known as a young Ed. son, and he is devoting himself to the production of air lamps of greater candle power than those now in use. He has produced air lamps of from 4,000 to 250,000 candle power, but these are more latent compared with what he is installing in one of the Hobbs, in railway stations. It is a mile long, and has a candle power. The light cast by this lamp will be so intense, brilliant and will radiate over an area of more than two miles. The New York pilots have been making nervous, nervous against the installation of this. They say that while the light which the two-mile area will be too brilliant, it will make the darkness more pronounced. The light will be so intense, brilliant and will radiate over an area of more than two miles.

# Bigger Profits to Policy-holders

It is easy to see why a policy in this Company is an excellent investment as well as a protection.

Last year, the new business amounted to \$7,081,402—a gain over \$1,175,000 in 1907. Yet the opening operations were about the same as last year.

For the last five years, the actual mortality was only 47% of the amount expected. And the interest income exceeded the mortality by \$108,103.

With an expense ratio of income smaller than its competitors, with a yearly expanding interest income, and a favorable death rate, it is but natural that *The Mutual Life of Canada* is earning more profits, which go to the policy-holders in reduction of their premiums.

The Beauty

of having SCANTLEBURY execute your decorative work is not alone the entire satisfaction to the eye.

The promptness with which we dispatch the work.

The reasonable cost for our superior work, for mark you it costs little if any more to do work properly than it does to do it slovenly, simply because the slovenly workmen will prove inefficient as well as insufficient.

We have an excellent staff of skilled craftsmen—we employ none others. Our staff is so complete that you may book your order TODAY and have it executed tomorrow.

Command Us Once On Trial and You Are Our Customers Forever.

Ways of the Venomous Far-lands of Martique.

The strange tales of the islands of Martique and Santa Lucia, the natives of the islands with a description of jungle life and the habits of its aggressive reptiles.

It was the fact that it does not warm the intruders of the house after the manner of the cobra, but rather, it strikes the intruder with its tail, and then it strikes the intruder with its tail.

If the man who is the subject of the article should show no sign of hostile intent he would be allowed to pass unharmed within the precincts of the cobra's lair.

And the reptile itself is ready to repeat its life. For a moment it stands back, trembling with excitement, and it follows a few feet of the intruder's trail will snap away at stumps and stems, or even, like a venomous snake, at its own body.

A HAPPY SOLUTION.  
The Way the Family Compromised on a Vandal Problem.

There is a growing tendency of opinion in the Princeton family concerning the dining table. Mr. Princeton maintained that its legs were too short and ought to be lengthened.

"I don't like its chair, dad, and you know it," said Mr. Princeton. "I think the table is just right. But I'm willing to compromise on the matter."

"What do you expect her to do?" said Mr. Princeton. "I don't want to see her with a new kind of hardwood flooring that is laid on top of the old floor."

"Well, we can have that new kind of hardwood flooring that is laid on top of the old floor. That will make the surface three-quarters of an inch or more, and that will make the table, of course, just as much. How will that suit you?"

This seemed to be a fair proposition, and the matter was settled. Mr. Princeton accepted it as a satisfactory compromise—Toby's Company.

It was in his head. He had promised himself to write a play. He had promised himself to write a play. He had promised himself to write a play.

WEDNESDAY, MAY 20, 1908.

Turn, Fortune, a good omen. It is a sign that the world is turning, and that the future is bright.

THIS MAY IN HISTORY.

May 20, 1862. The Battle of Antietam was fought. It was a tactical draw, but it was a turning point in the American Civil War.

TIMELY TOPICS.

Good evening. Heard of anybody who has seen the missing man?

Don't forget the meeting in the Assembly room on Thursday evening. There will be many things to interest you.

The weather may seem to have a grudge against the Toronto. Very warm, sunny, but the things are the things of the world.

Tilsburg, May 21.—Fire which

A number of others had very close

Miss Campbell, milliner, sister of

above.

The hotel was a three-story build-

ing, on the main street and about

40 rooms. There were some 60

persons in the hotel when the fire

excepting.

When the guests were aroused by

hearing women screaming, one of the

men, James McLean, a carpenter, had

having landed on the roof, but even

then the building was so well en-

compassed by flames that it was im-

possible to get out.

Miss Gray, who was sleeping on the

second floor, it is presumed that she

dropped from the roof, and was

carried to the ground below. His skull

She was also burned around the

throat.

# A QUESTION OF TIME.

By Clarissa Mackle.

A night in India-bum, breathless, the stars shone down on the blue sky and the dank odor of rotting vegetation from the window of the room. From his seat in a bamboo reclining chair, the man looked out at the blazing coals in the grate. The smoke had been inhaled through the net, and the man's face was pale.

The man's face was pale, and his eyes were closed. He was in a state of unconsciousness. The stars shone down on the blue sky and the dank odor of rotting vegetation from the window of the room.

he turned through the gate and made for the road that led into the country.

"To a place where we can let them go," he said, "and then we can go on our journey."

Up the road through the afternoon sun they went at a sober pace. Not once the city was fairly behind them.

Don Dean quickened the pace. "Faster they went and faster still they were tearing along at a snail's pace. Across great stretches and over the low hills they sped. The two horses had caught the scent of the gully and now along at their best pace. The girl's cheeks were glowing. Don's eyes sparkled with the excitement of it."

# THE INDIVIDUAL EAR.

Map and Consider This Easy Way to Live on a Corn Crop.

By J. M. FETTERSON, Kansas.

What is the individual ear of corn? This question must be answered by every corn breeder who wishes to succeed. It must have an ideal mind and work to that end. The ear of corn is perhaps the best indicator of the soil and climate. In springing good corn it is not advisable to grow a hybrid. The ear of corn should not be selected until it comes to a head. The ear of corn should be selected until it comes to a head. The ear of corn should be selected until it comes to a head.

The simplest and best method of testing the germination of each ear is by using a germination box. The most convenient box is 3 by 4 feet. Fill with sterilized cornmeal forming a bed 2 inches deep. Sow the ears in each of these squares. Then wet the soil and place the ears in the box, keeping the sand and soil moist and warm. Keep a record of the time of germination and note the weight when the ears are ready.

What Right Good Ear Will Do.

After the germination test the next step is to prepare the soil. The soil should be prepared by removing the mixed herbage and weeds. The soil should be prepared by removing the mixed herbage and weeds. The soil should be prepared by removing the mixed herbage and weeds.

# SPRING CLEANING.

Several Means of Securing Thoroughly Sanitary Results.

The great importance of thorough disinfection of houses to prevent the spread of such deadly diseases as tuberculosis, glanders and many others and the general lack of exact knowledge as to how such disinfection can be accomplished have led C. M. Haining of the California experiment station to compile the following simple directions for securing disinfection and sanitary conditions in houses.

Thorough Cleaning.

Cleanliness is an important adjunct to the work of disinfection. The cleaning of the static incident. First, removal of manure; second, removal of piles of food; third, removal of olden work and loose boards, opening up the floor, and the dust, and sweeping of the ceilings, walls and floor, and, fifth, removal of dirt and vermin.

Chemical Disinfectants.

After the stable has been treated as recommended above it is ready for the application of chemical disinfectants. Among the most active are carbolic acid and corrosive sublimate. Carbolic acid is usually dispensed in ready-made parts of pure acid and five parts of water. For use as a stable disinfectant this should be mixed with water in the proportion of one to twenty or one part of acid to two and a half parts of water.

Disinfectants of uncertainty, or corrosive sublimate, has the advantage over carbolic acid for use in a dairy stable in that it is more easily dissolved in water and is more active and must be used with great care. The solution of carbolic acid is dissolved in eight parts of water makes a solution of the right strength. In making the solution the carbolic sublimate should be dissolved in one gallon of water over a fire, with enough cold water to make a gallon. If carbolic acid is used the solution should be kept in a wooden tub or earthenware crock.

# Farm and Garden DUTCH DRAGGING.

It Makes Convenient Carriers, and is Really Simple.

Dragging "the fashion" is actually new. I learned it more than twenty years ago. Still, it may be new to some and prove of value. Its advantages are that it drags small lengths of material across the surface and makes more certain than the ordinary drag. It is shown in diagram below. Commonly by "driving" the drag to the right and go back on the left side of first track till you reach the end.

## Tainted Diamonds.

The lady was about to cut the tail of a tawdry shaped yellow diamond.

"This shadow man," he said, "this fellow will turn white from terror when I split him. If he does his value will go up 200 per cent."

The lady held his steel knife in position. He prepared to strike on the knife's back the monstrous blow.

"With no luck," he said.

And the hammer fell, the amputated tail dropped like the dead underneath, and, in the yellow diamond that had been split was now only white.

"The yellow tail," the crowd explained, "was only in the tail. Yet the tail was removed all through the stone, and this made it seem of a uniform yellow throughout. Now the stain is gone, and our yellow diamond is a pure white one."

"The miracle happens fairly often," Philadelphia Bulletin.

Epiglottis of an Indian. "When the head of the New Person was a truly remarkable Indian. He rarely coughed, but when he did the deep cough was heard. Here is a few of the epiglottis attributed to him."

"Look twice at this face man!" "Cured by the hand that scapes the reputation of the dead."

"Five water course" ends in trum-bling fence."

"His name often stands on small legs."

"Honest for may ever toughest tongue."

"When you get the text word with an echo you may do with a squaw."

## Pink Chicken and Veal.

Law police, we said and now we make the graveyard fat. This is found of years old. A New York cartoon (perhaps the most efficient in the city) said to me: "There are three important articles of food that must never be consumed at the same time."

They are fat, chicken and veal. By chicken I mean all poultry of a domestic nature, and by veal I mean all young stock. You want to be a little fat and look like a pig. Give it plenty of cooking."—New York Press.

Buttermilk. "Which is the cow that gives the buttermilk?" the farmer asked the young lady from the city, who was inquiring that with a certain look.

"Don't make yourself ridiculous," the young lady who had been in the country before and knew a thing or two. "Goats give buttermilk," Springfield Journal.

Few and Far Between. "If men really would 'steal' as they 'should,' the world would be a happy world."

"Yes," replied Wile. "But if you wouldn't get some men to the pole once in ten years," Washington Star.

Must Be Stupid. "Why do you wear that ridiculous hat?" he growled.

"Why do you think it ridiculous?" the replied growler.

"I'm not sure," he replied. "I don't like the style,"—Washington Journal.

Permanent Receiver. "Patience!" her Will is going to marry that girl but he's been spending so much money on. Fair-Wee. He's going to make her a permanent receiver."—Yonkers Statesman.

## ONE STALL.

Captain Cook's, Walking Stick With Thunder and Lightning.

When Captain Cook's ship, the Endeavour, set to Mercury bay, New Zealand, in 1769, a brown boy of eight, who afterwards became a chief and died of a great age, was aboard of his name was "Taiwira."

It was very much for the brown boy to pick out Captain Cook (Captain Cook among the men on board Taiwira said) he was the leader of the "people," a very great man. He said the ship gave and dignified. He held up a staff, a polished piece of wood, when Taiwira laughed, gave it to him.

Thus the boys here that he was good as well as great. They were shocked that a govt. agent stole a piece of his.

"They paddled away," Taiwira continued. "The ship went down into the hold of the ship, but soon came up again at a terrible price. In his hand, pointed it at the canoe. Thinder peal of loud lightning flashed, but there in the canoe paddled on."

"Then they landed. Right now to leave the canoe, but the boat was still with his dogskin mat and the govt's garment under his feet. His name was called him, but he did not answer, fell back into the hold of the canoe, and blood was seen on his clothing and his life was lost."

## THE POLITE FRENCHMAN.

He Will Say "Pardieu" But Will Growl "Ouf" Over the Pavement.

Among the myths about the Parisians are the stories of their politeness and large in the notion that they are the most polite people in the world. That is a good old one, but when you come to the matter of the Parisian's politeness, the Parisians are the greatest actors in the differential phrase and the objection here.

Actually the Parisian is not polite, he is not even usually polite. He is courteous and obliging, but he is not polite. He waits along the streets as if he were a king, and he is not polite, no matter what the circumstances are. He is polite to himself, but he is not polite to others.

He is polite to himself, but he is not polite to others. He is polite to himself, but he is not polite to others. He is polite to himself, but he is not polite to others.

By REX E. BEACH.

Copyright, 1905, by Rex E. Beach.

This is a story of that great country of which it has been said, "There's never a law of God or man runs north of fifty-three," a tale of impetuous emotion, of brute strength and courage, of swift and passionate love and hate; a tale of vigorous, forceful and absorbing, which tells itself without fine words; a story of the hunger for gold and the hunger of men for woman, brooking no interference or rivalry, going straight for its object as did the primitive man before the time of laws and conventionalities; of civilized man turned back to savagery and taming no manhood in the turning. Tarry awhile, O reader, with these rugged men of Maine, and you shall be refreshed and strengthened in their company.

## CHAPTER I.

LENNED stood out over the harbor against with the light of a sunset which had been up at the cranial mountain, black against the sky. It was the end of a long day, and the sun, while the blood of his forehead leaped within him.

"Oh, it's fine—fine," he murmured, "as did the primitive man before the time of laws and conventionalities; of civilized man turned back to savagery and taming no manhood in the turning. Tarry awhile, O reader, with these rugged men of Maine, and you shall be refreshed and strengthened in their company."

"Careful you don't get drunk on mountain air. Don't expect one strong in one spot." He went back sleepily to his pipe, in the village, and he was not averse to the danger of the air's true quality.

"You ought to be in quarantine," he said to a man like him. "You ought to be in quarantine," he said to a man like him. "You ought to be in quarantine," he said to a man like him.

"The money bills back of the village were edged with gravel of those who had died on the sea trip the fall before, when a plague had gripped the land, but what of that? God filled the hands, and the money bills were there. Therefore men came in haste. Glenister and Dottry had been driven from their homes by the plague, and the money bills were there. Therefore men came in haste. Glenister and Dottry had been driven from their homes by the plague, and the money bills were there.

"The air whets every animal instinct in me," Glenister broke out again. "I've got to get to the bottom of this. I've got to get to the bottom of this. I've got to get to the bottom of this."

"The air whets every animal instinct in me," Glenister broke out again. "I've got to get to the bottom of this. I've got to get to the bottom of this. I've got to get to the bottom of this."

# Newbro's Herpicide

More men and women have gotten positive results from the use of NEWBRO'S HERPICIDE than from all other hair remedies combined.

Newbro's Herpicide is the ORIGINAL remedy that kills the dandruff germ. It eradicates dandruff, stops falling hair and permits a natural hair growth by destroying the tiny vegetable growth (4 germ or microbe) that causes hair destruction. Nature constantly struggles to supply life and vigor to the hair, but the dandruff germ saps this vitality and strangles the life out of the hair.

## START RIGHT BY DESTROYING THE CAUSE

of Hair Loss with NEWBRO'S HERPICIDE

Extraordinary Results Sometimes Follow Its Continued Use

It Benefits A Large Scalp Specialist.

"I am sending you my photograph to show what Newbro's Herpicide has done for me. Since I first used Herpicide, my hair has grown and is coming in giving scalp treatments to others, and I would not think of trying to get along without it."

(Signed) MRS. ANNA CONNER.

Indispendable Following Severe Illness.

"I was overwhelmed from a critical illness of pneumonia, and my hair was left in a deplorable condition, falling out and becoming dry and brittle. The scalp lacked vitality and seemed dead. I used Herpicide according to directions with most beneficial results. It restored the vitality of my hair, and I am now successfully endeavoring it for doing all you claim, and it gives me great pleasure to recommend it."

(Signed) MRS. M. MEADRE.

For regular toilet use, Newbro's Herpicide easily occupies first place. It is in practical use by civilized countries on the globe, and a single trial will show why discriminating ones can prefer it. Continue no other scalp treatment, but use Newbro's Herpicide. It stops itching of the scalp almost instantly.

BIG AIRSHIP WRECKED

A Spectacular Accident Occurs to a Balloon in Mid-Air.

Tilted, Bored and Dropped With Its Crew to the Ground—All Its Occupants Escaped—The Invention Among Those Hurt—10,000 Spectators Witness the Accident—On Its Trial Trip.

Oakland, Calif., May 25.—A mammoth airship on its trial trip in Oakland yesterday, 100 feet from the earth in view of 10,000 spectators, tilted, spun and dropped to the ground with its crew of 11 men, every one of whom was injured.

With the possible exception of L. V. Brown, who was injured, all were all right. Seven were severely injured, and three were killed.

The accident was spectacular. A great commotion followed around the field, and the airship was seen to be tilted with lightning gas.

Some of the ropes were cut and the airship rose slowly from the ground. The five gasolene engines, suspended beneath the long gas receptacle at intervals of about 50 feet, each attended by an engineer, were not operated until the airship was well up in the air.

One of the engines slowly set in motion the long propellers reaching out from the sides of the airship, and the airship, which was propelled forward by a few feet, was tilted downward until the craft stood at an angle of 45 degrees.

Some of the crew were apparently unable to run along the canvas pathway equally for weight, and to right the airship, and they tilted downward until the craft stood at an angle of 45 degrees.

## And Daniel And Henry "Tarried by the Staff."

Candidates Were Coy, But Made Up Their Minds Quickly When the Long Green Arrived on the Scene.

Mr. Daniel P. Parker, of Newbury Mills, was offered the nomination for East Hastings, and declined without any delay. The "Friends" of Mr. P. Parker, of this city, kept the political campaign quiet until the day before the "bottle" was about. On Saturday last, Mr. Daniel P. Parker and Mr. Parker, both experienced a change of heart. They would carry the banner for the Girls, they said.

### Firemen Had Four Runs in 24 Hours.

It Was no Holiday for the "Boys Who Fight the Smoke and Flames and Fire."

The local firemen had the "bottle" again on yesterday, and on this morning, there being four alarms.

At 10 o'clock Monday morning they were called to H. Vance's residence on Murray st., but they arrived at the house at 11 o'clock. The fire was extinguished by the firemen, but the damage was considerable. The next run came about 6:30 in the evening, to the West Hill Separate School, which was described elsewhere.

The most serious fire occurred between the hours of 11 and 1 o'clock, this morning, at the residence of Mr. Thomas McElroy, corner of King and Colburn streets. When discovered the blaze had gained considerable headway, and before it was under control the woodshed and summer kitchen were destroyed and considerable damage done to the other part of the premises. No person was home when the fire occurred, and no general insurance is that it was caused by fireworks, as they were being discharged by the firemen in the early part of the evening and in the early part of the morning. The fire was extinguished by the firemen, but the damage was considerable. The next run came about 6:30 in the evening, to the West Hill Separate School, which was described elsewhere.

### Looks Like Daring Attempt at Arson.

Did Somebody Try to Burn Down West Belleville Separate School Last Evening?

What looked like a most daring and hazardous attempt at incendiarism took place in the West Belleville Separate School about 6:30 last evening. The school is situated on the corner of the street, and was burned down. The fire was extinguished by the firemen, but the damage was considerable. The next run came about 6:30 in the evening, to the West Hill Separate School, which was described elsewhere.

### Wanted His Due.

A recreation Indian was discomfited over the breaching of his hands. He told his neighbors before the "farmer" of the man's arrival, who, through pity, took a new handle from his private stock and adjusted it to the ax. The farmer then noticed that the ax was slackening off. So, noticing the answer to turn the griddle, he expended a half hour's time in sharpening the blade. When the relationship was given to the Indian he was childishly gleeful, but still lingered about, indicating by his actions that some feature of the transaction had not been adjusted. The farmer was a little annoyed and called to an interpreter. "Ask the old fellow what he wants now," he directed. After an exchange of grunts and gestures the interpreter answered, "He wants 25 cents."

"Twenty-five cents! What for?" "For turning the griddle!"—Harp.

### The Other Way.

There was a hopeful gleam in the eye of the young man with a slightly strolling air as he approached the father of his ladylove. "Will you give your daughter to me in marriage, sir?" he asked in as firm a tone as he could muster. "I'm afraid you are not well acquainted with her, young man," remarked the father. "Why, I've seen her twice a week for nearly a year," said the astonished son. "But you know about all the character you've seen," said the father. "I've seen her twice a week for nearly a year," said the astonished son. "But you know about all the character you've seen," said the father.

### SLEEVE PROTECTOR.

A Clever Little Invention For Shirts. Linenette Blouses.

Just how to wear a sleeve protector and how it keeps and dainty looking in the cut of the blouse. This is especially true if a woman wears freely, for it is absolutely essential to many women, however, though nothing is uglier than a blouse exposed to the weather and showing through both bodice and sleeves. A clever little invention solves it and it is possible to solve this problem. A sleeve protector is used as a foundation.

## Yoke SHIRTS

The button hole for the stud, in the back of the neck in our shirts, is not placed in the neck-band, as it is in all other shirts. Instead, there's a small flexible tab of stout cotton with a button-hole in it, as illustrated.

Easy to put in the stud, and it cannot cause the neck.

This feature alone should make every man give Yoke Shirts a trial—after that the shirt will do its own talking. Yoke Shirts are the only shirts that have this tab feature.
